# Avoiding Common Private Foundation Mistakes

### Agenda

- Why this Presentation?
- Basic Definitions/Foundation Excise Taxes
- Self-Dealing Mistakes
- Proper Procedures for Grants to Foreign Organizations
- 990-PF Common Errors
- Planning Tips
- Recordkeeping and Processes

## Why this Presentation?

- Tax rules applicable to private foundations are complicated and not always intuitive
- Most foundations run into problems with "self-dealing" rules, which prohibit almost all financial transactions between a foundation and its "disqualified persons"
- Foundations also encounter problems when making grants to other organizations, particularly grants to foreign organizations
- New rules issued 9/2015 regarding certain types of grants to foreign organizations

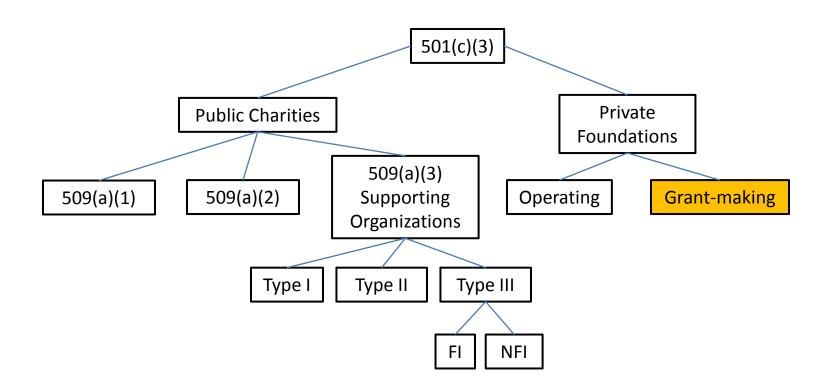

## Why this Presentation?

- Foundation returns are complicated and often not prepared correctly
- The Form does not flow in any type of logical progression
- IRS estimates 60 hours to learn applicable laws to prepare the form—so, it's even hard to prepare for many practitioners
- Returns are open to public inspection—Foundation Center and Guidestar
- Reliance on CPA or other preparer to get it right

# Where Private foundations Fit in the 501(c)(3) Universe

### **Basic Definitions**

#### **Foundation Excise Taxes**

- Self-dealing transactions (a variety of transactions with disqualified persons)
  - Sales, exchanges, leases
  - Furnishing of goods, services, facilities
  - Payment of compensation or reimbursement of expenses
  - Exceptions
- Mandatory Payout
  - In general, a foundation must pay out 5% of its noncharitable assets
- Excess Business Holding Rules
  - Designed to prevent the control of a for-profit business by the private foundation; generally, more than 20% interest

### **Basic Definitions**

#### **Foundation Excise Taxes**

#### Jeopardizing Investment Rules

- Penalties are imposed if foundation makes investments that jeopardize the ability of the foundation to carry out its exempt purpose
- Foundation managers failed to carry out ordinary business care
- No investments are automatic violations
- Important exception: PRIs

#### Taxable Expenditure Rules

- Impermissible expenditures:
  - Lobbying
  - Influencing public elections
  - Grants to individuals without IRS approval
  - Grants to organizations that aren't public charities (expenditure responsibility required)
  - Expenditures for non-charitable purpose
  - Grants to Type III non-functionally integrated supporting organizations

# Self-Dealing Mistakes Disqualified Persons

#### Basic Rule: No transactions with "disqualified persons"

- Officers, directors, trustees
- Substantial contributors
- Person who owns more than 20% of a corporation, partnership, trust, or unincorporated enterprise that is itself a substantial contributor
- Family member of an individual described above
- Corporation, partnership, trust, or estate in which persons described above own more than 35%

# Self-Dealing Mistakes Penalty Excise Tax

#### On Disqualified Person:

- Initial tax of 10% of the "amount involved"
- Second-tier tax of 200% if not corrected
- Due even if self-dealer unaware
- Due even if transaction is fair to foundation

#### • On Foundation Managers:

- Initial tax of 5% of the amount involved (up to \$20,000 per act)
- Second-tier tax of 50% if not corrected
- Applies to managers who approved the transaction knowing it was self-dealing
- No abatement

# Self-Dealing Mistakes Compensating Family Members

# Can our foundation compensate a family member for services?

- Basic rule: Yes, so long as compensation is reasonable and for personal services necessary to carry out the foundation's charitable functions
  - Personal Services: Foundation management, legal, accounting, investment
    - Property management? Non-professional services?
  - How do you determine reasonable compensation?

# Self-Dealing Mistakes Travel Expenses

# Can our foundation pay travel expenses for disqualified persons?

- Most foundations don't compensate family members who sit on boards, but no prohibition if fees are reasonable
- Foundation assets generally cannot be used to finance the travel or other expenses of family members (e.g., spouses and children) who have no role in the foundation

## Self-Dealing Mistakes

#### **Tickets and Tables**

Who can use tickets or tables our foundation receives for grants made in support of fundraising events, charity benefits, museums, performing arts organizations?

- Foundation officers, directors, and managers (even if employees of foundation's corporate founder) if reasonable and necessary to performance of oversight, evaluation and monitoring tasks for Foundation.
- Spouse of foundation employee?
- Disqualified persons (including, company officials) who have no role in foundation may not use tickets
- Bifurcation not permitted

# Self-Dealing Mistakes Sharing Office Space and Employees with DPs

# Can our foundation share office space, equipment and/or employees with a disqualified person?

- Potential acts of self-dealing:
  - Sale, exchange, or lease of property
  - Furnishing of goods, services, or facilities
  - Payment, compensation, or reimbursement of a disqualified person

#### Exceptions:

- Permissible if resources provided to foundation for <u>no</u> charge
  - "fair" or "below market" terms are not a defense
- Permissible if foundation and DP enter into separate lease agreements or equipment contracts with non-disqualified person
- Permissible for foundation to reimburse DP for personal services that are reasonable and necessary to the foundation; employee time must be tracked and allocated

# Self-Dealing Mistakes Co-investing with Disqualified Persons

### Can our Foundation and a disqualified person invest in the same investment partnership?

- IRS guidance on issue isn't clear, but foundation's purchase and redemption of shares in partnership could be viewed as a sale or exchange of property with a disqualified person (act of self-dealing)
- In a few rulings, IRS has held that purchase by foundation of a LP interest in a fund in which disqualified persons have an interest is <u>not</u> an act of self-dealing. But, IRS has clearly acknowledged the <u>potential</u> for self-dealing under such circumstances
  - PLR 200318069: Foundation's acquisition of LP interest in an entity controlled by DPs constitutes a "co-investment arrangement," <u>not</u> a sale or exchange between the private foundation and the disqualified persons
  - PLR 9726006: Foundation's investment in LP controlled by disqualified persons <u>could</u> be deemed an act of self-dealing, but was not in this instance because disqualified persons would receive no "more than an incidental or tenuous benefit" where foundation's investment would constitute only 1%-3% of the partnership's total capital
- IRS Priority Guidance Plan

# Self-Dealing Mistakes Pledges

#### Can our foundation pay a pledge made by our founder?

- Foundation should not satisfy a pledge made by a disqualified person
  - Satisfaction of a disqualified person's obligation is an act of self-dealing
- Does it matter if the pledge isn't legally enforceable under state law?
  - IRS has ruled that payment of DP's obligation by foundation is self-dealing whether or not legally enforceable
- IRS has ruled that payment of DP's pledge may also be a taxable expenditure (TAM8534001)

# Self-Dealing Mistakes Credit Cards

Can a disqualified person use a foundation credit card for personal expenses and reimburse the foundation within a month?

- Use by a disqualified person of a foundation credit card for personal expenses is considered a loan by the foundation to the DP
- Violation of the self-dealing prohibition even if the DP repays the foundation promptly

# Proper Procedures for Grants to Foreign Organizations

## For grants to foreign organizations not recognized by the IRS, Foundation can use:

- Expenditure responsibility
- Equivalency determination
  - Foundation can opt to conduct a foreign equivalency determination – only needs to exercise expenditure responsibility if it determines that the grantee is not the equivalent of a sec. 501(c)(3) public charity
  - Foundation must make "good faith determination" and "reasonable judgment" that foreign entity meets criteria to be a 501(c)(3) public charity, based either on affidavit from grantee or opinion of counsel

# Proper Procedures for Grants to Foreign Organizations

#### Comparison of Alternatives:

- Often easier for grantors to exercise expenditure responsibility than conduct equivalency determinations
- Equivalency determination may be may be preferable in certain cases:
  - Clear equivalent e.g., grant to foreign university
  - Grants for endowments perpetual reporting?
  - Grants for capital equipment also potential reporting problem
  - Grants for general support
  - Grants where practical considerations make expenditure responsibility difficult e.g.,
    if likely to be difficult to get reports from grantee (of course, may be difficult to do
    equivalency determination too)
- New regulations issued 9/2015
  - Grantee affidavit alone no longer adequate basis for "good faith determination" of equivalency
  - Foundation generally must also rely on written advice from "qualified practitioner"
  - Includes CPAs, NGOsource, in-house counsel (maybe)

#### Reporting Issues

#### What does the 990-PF do?

- Revenues and disbursements, assets and liabilities classified into meaningful categories
- Form has special parts that fish for compliance failures

#### Reporting Issues

- Complete ALL lines of the return—"yes", "no", "N/A"
- Use zeros or enter "none" or N/A if a part does not apply
- Failing to allocate legitimate administrative expenses to charitable activities/purpose
- Column d must be on a cash basis even if the foundation maintains its books on an accrual basis

#### Reporting Issues

- Failing to file 990 PF with the state Attorney General in which the foundation's principal office is located; and the state in which the foundation was incorporated or created
- Not using investment related expenses to off-set net investment income.
- Failing to include Schedule B—it is open to public inspection

#### **Distributions**

- Missing out on utilizing excess grant carryovers
- Example a Foundation over distributes \$50,000 in 2015.
   The foundation can use this excess to reduce its grant-making up to that amount through 2020. After 2020, the ability to use this excess is lost
- Missing out on the amount that must be distributed in the following year
- Failing to add grant recoveries to distributable amount,
   Part XI, line 4

#### **Investment Related Issues**

- Incorrect calculation on sale of stock donated to the foundationfailing to track the donor's basis
- Failing to list all securities held—this could be pages
- Government and municipal obligations can be shown in aggregate but not grouped together
- Capital gains and losses can be net together, but cannot be less than zero
- Attaching a list of all publicly trade stock, mutual funds, bonds can be reported as a lump sum. All other sales must be listed separately.
- Valuation of property appraise every 5 years

## Planning Tips

1% v 2%

Take advantage of the 1% tax when the difference between the 1% and 2% tax rate would require a distribution. For example:

- Tax on net investment income at 2% = \$40,000; tax on 1% is \$20,000
- If paying an extra \$20,000 in distributions the 1% tax could be obtained

#### Tips:

- Don't let it drive your grant-making; but you may want to accelerate your grant-making
- The tax is based on a 5 year average of distribution giving, so a foundation needs to distribute more and more of its assets to qualify. During periods of slow asset growth it may be better to pay the 2% tax than try to distribute more to qualify for the 1% rate
- Work with your accountant or tax preparer about 1 month before the end of the year to project the 1% v. 2% tax
- Work with investment adviser in a year when you'll be at the 2% rate
- Be aware of the undistributed number (Must distribute this year)

### Planning Tips

#### Miscellaneous

- A word about alternative investments. Determine whether the investment will generate unrelated business income tax. We often see funds that trade on margin generating UBIT.
- Since capital losses can't be carried forward or backward, consider strategically selling appreciated assets in the same year you have losses
- Consider donating highly appreciated securities with low cost basis
- Investments in limited partnerships and foreign hedge funds should be reviewed to make sure no foreign tax filings are required
- Form 926 (Return by a U.S. Transferor of Property to a Foreign Corporation) and Form 8865 (Return of U.S. Persons with Respect to Certain Foreign Partnerships).
- Make sure FBAR(s) (Foreign Bank Account Report) are filed
- If officers or managers are paid, have an independent consultant review their compensation plan

### Recordkeeping and Processes

- Develop a systematic way of recording and capturing a foundation's monetary transactions
- Maintain a database that tracks grants made and evaluating the success of grant-making policy
- Keep track of grant requests received, awarded, rejected
- Maintain a database of follow up actions taken with grantees, including due dates for multiyear grants
- Develop a system of internal controls to protect foundation assets, including check signing controls
- Conflict of interest
- Develop a compliance calendar, including filing (extension dates), excise tax payment dates, taxes due on real or intangible personal property
- Follow up reports for expenditure responsibility grants
- Board responsibilities meet at least annually
- Develop an investment policy
